

# Suyeon Ju:

## Last Week:

- Read “Hyperparameter Optimization in Machine Learning Models”
  - [Link to page, Markdown summary](#)
- Finish running sklearn classifiers on OpenML CC-18
  - [Jupyter Notebook](#)
- Run classifiers on OpenML 100
  - Errors for one dataset (task\_id = 34536)
  - [Jupyter Notebook](#)
- Find out how to [benchmark](#) with SPORF
  - DoD: Jupyter Notebook

## This week:

- [benchmark](#) with SPORF using OpenML 100 and CC-18 datasets and SPORF default parameters
  - DoD: Jupyter Notebook
